

PROJECT TITLE

Runoff **pollution control on Hwy 152** in Santa Clara County

Insert Location Map Below:

Project Location: In Santa Clara County on Route 152

Co/Rte/KP/PM: SCL-152 at P.M. 0.0/2.5 K.P. 0.0/4.0

PPNO: (EA: 1A860K)

Project Description: Run-off Pollution Control on Hwy. 152 between Santa Cruz County line and approximately 0.25 miles east of Sprig Lake.

Project Scope: Install up to two storm-water runoff filtration sites for temporary stockpile disposal sites and screen landscaping.

Existing Funding: IIP: \$800,000.
RIP: \$0
Other: \$0

Future Funding Need: \$0

Total Estimated Cost: \$800,000

Project Schedule:

- Start PA&ED 7/04
- PA&ED 2/05
- PS&E 11/05
- R/W Acquisition N/A
- R/W Certification 12/05
- Ready to List 3/06
- Award Construction 7/06
- Project Installation Completion 12/06

PROJECT INFORMATION

Purpose & Need for the Project:

Project Need:

It is necessary for Maintenance to stockpile debris that slides into shoulders and roadways during major storms. There is a need to protect Bodfish Creek from siltation caused by run-off from these debris stockpiles. The terrain is mountainous and steep with little shoulder room for cleaning up and stockpiling slide material.

Project Purpose:

The primary purpose is to create and enhance temporary stockpile disposal sites. This will result in protected storage of soil generated during storm events and eliminate current storage practices that erode and deposit sediments into Bodfish Creek. Screen planting will block views from the highway of the debris stockpiles.
